PROFESSIONAL SUMMARY

BCA graduate currently pursuing MCA from Mumbai University, with a strong foundation in programming, SQL, and full-stack web development. Hands-on experience in building and managing web applications, working with REST APIs, and handling backend data operations.

Possess a solid understanding of Software Development Life Cycle (SDLC), debugging, and troubleshooting techniques. Interested in both development and technical support roles, with a growing inclination toward healthcare IT and data integration technologies.

I have hands-on experience working with APIs and real-time data, which aligns with data integration and system support roles.

Quick learner with strong communication and teamwork skills, flexible to work in night shifts, and available to join immediately.

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, JavaScript

Web Technologies: HTML, CSS, Node.js, Express.js

Database: MongoDB, SQL (Basic – Queries, Joins)

Concepts: SDLC, REST APIs, Debugging & Troubleshooting

Tools & Platforms: GitHub, Linux, Bootstrap, jQuery, GSAP

PROJECTS

IPL Cricket Chrome Extension

March 2024

Project Link: <https://github.com/Aniketpal0402>

- Developed a Chrome extension to fetch and display live IPL match data using external APIs
- Implemented asynchronous API calls and handled JSON data for real-time updates
- Designed dynamic UI to reflect live match status, scores, and teams
- Configured extension using manifest.json and integrated scripts efficiently

- Handled API errors and ensured smooth data flow during runtime

Comprehensive Education Management System

Jan 2025 – May 2025

Project Link: https://github.com/Aniketpal0402/Comprehensive_Education_Management_System

- Developed a centralized system to manage student data, assignments, scheduling, and communication
- Built backend APIs and handled database operations to ensure smooth data flow
- Performed debugging and issue resolution to improve system reliability
- Demonstrated structured data handling and workflow management similar to real-world systems

Facebook Clone

Aug 2024 – Oct 2024

Project Link: https://github.com/Aniketpal0402/minebook-facebook_clone-

- Developed user authentication system with login, registration, and profile management
- Implemented backend using Node.js and Express.js with MongoDB integration
- Worked with APIs and handled user data securely

Alarm Clock Application

April 2024

Project Link: <https://github.com/Aniketpal0402/alarm-clock>

- Built a dynamic alarm system with real-time updates and notifications
- Implemented DOM manipulation and event handling for user interaction

EDUCATION

Master of Computer Applications (MCA)

Mumbai University (Pursuing)

Bachelor of Computer Applications (BCA)

Tilak Maharashtra Vidyapeeth | 2022 – 2025

GPA: 8.5

HSC (Class XII)

New English Jr College | 2021 – 2022

Percentage: 80.17%

SSC (Class X)

Guru Nanak High School | 2019 – 2020

Percentage: 78.40%

ADDITIONAL INFORMATION

- Willing to work in night shifts and support US-based clients
 - Available to join immediately
 - Strong interest in healthcare IT and data integration technologies
-

SOFT SKILLS

- Communication and Team Collaboration
- Problem-Solving
- Time Management
- Adaptability and Quick Learning
